Important Note for all users

MedCo has surveyed users on changing its charging structure. It is currently collating and considering the responses. At present it is anticipated that changes to the Charging Policy may be made in the Autumn – appropriate notice will be given once the policy is set. Whilst this fee is stated to be an “annual fee”, you should note that it may be subject to change. Any fee that you have paid already will be taken into account at the point that any change is introduced and MedCo will contact you nearer the time to confirm how that will be calculated.

The definitions set out in the MedCo User Agreements between MedCo and the Users shall apply to this Charging Policy. The User Agreements are published on www.medco.org.uk

Abatements applied to fees to reflect an accounting surplus are only applied to renewals.
