RECITALS

- (A) MedCo operates in accordance with policy decisions made by the Government and will from time to time issue MedCo Rules to ensure that the policy decisions are met. MedCo operates the Database (as defined below) containing certain details of MEs and medical examination information. That Database is populated with data supplied by MEs and other organisations and individuals approved by MedCo to contribute data to the Database. MEs providing medico- legal reports are required to be both Accredited and Operational before their information is added to the Database.
- (B) This Agreement covers Accreditation and the steps required to be taken by the ME to put a MedCo User Agreement in place between the parties and MedCo agree to set the ME as Operational. Once the User Agreement is in place, this Agreement automatically comes to an end and the ongoing relationship between the parties to this Agreement will continue by reference to the terms of the User Agreement.
- (C) The ME is applying to become an Accredited expert and subsequently be made Operational on the MedCo Database. However, in order to satisfy MedCo that the ME meets the required standards to provide medico-legal reports the ME will have to successfully complete the Accreditation Training and satisfy any Due Diligence checks undertaken by MedCo. Following the ME's acceptance of this Agreement, MedCo will carry out initial Due Diligence to determine whether the ME should be permitted to undertake the Accreditation Training. If MedCo accept, following the Due Diligence, that the ME is a suitable candidate, MedCo will notify the ME that they are permitted to undertake the Accreditation Training.
- (D) MedCo will arrange for the provision of Accreditation Training which must be completed within 9 months of MedCo notifying the ME that they have Approval to undertake the Accreditation Training. The parties may agree, in writing, to vary these timeframes as set out in clause 2.2.
- (E) Upon completion of the Accreditation Training MedCo will consider whether the ME meets the requirements to become an Operational Accredited Expert. If the ME is deemed to meet the requirements, the ME will be required to enter in to either a Direct Medical Expert, or Indirect Medical Expert User Agreement (subject to how the ME will receive their instructions) and complete any related steps before the ME can be made Operational on the MedCo system.
